DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 12/06/06 was filed after the mailing date of the office action on 9/24/02. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

The references "AA" and "AD" have been lined through because they are not relevant to the claimed invention.

Additional Prior Art Cited

Each of the following references is cited as of interest in that

Sekikawa discloses an optical scanning system having a plurality of light sources, a polygon mirror and a plurality of scanning focusing systems; Suda et al, Araki et al, and Takano et al each discloses a cascade scanning optical system having a plurality of light sources, a polygon mirror and a plurality of scanning focusing systems.

Claim Rejections - 35 USC § 112

The rejection of claims 1-18 under 35 USC 112, first paragraph, made in paper no. 10 is repeated.

Applicant has traversed the rejection by arguing that the determination of the radius of curvature of each surface of lens/mirror, the refractive index of each lens/mirror etc. is routine and is easily derived to one of ordinary skill in the art with knowing the equation $\Delta L \cos \alpha > R/2$ is to be satisfied. The examiner disagrees

because without a boundary or numerical values of ΔL or R disclosed in the specification, one skilled in the art does not have sufficient information to obtain the scanning focusing mechanism ($f\theta$ lens/mirror system) which satisfies the claimed equation without undue experimentation.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
